Wendy Mack of WDSU-TV, master of ceremonies, was introduced by Charles Carter, National District President of the Miss Jaycees.

After the coronation, the contestants were interviewed by the judges at a tea in the afternoon at the home of Jaycees president Mrs. Michael Hankins, who was the Bay St. Louis organizer.

Red and white blossoms decorated the table, and an arrangement of pink and white roses formed a background on the buffet table. The Miss Bay St. Louis gown which was on a pale pink tulle cushion.

Mr. Hankins and Mrs. Hankins, who resided at the home, were the hosts. Other contestants were Misses Leta Lewis, Barbara Rayner, and Goodall and Catherine Malone.

P. O. Zip Code Is 39520

Our five-digit ZIP Code is 39520. Postmaster Andy J. Becker announced today.

"Everyone in Bay St. Louis, Miss., will use this ZIP Code on all their correspondence to speed mail deliveries and reduce the chance of misdirected mail," Postmaster Becker said.

ZIP Code, the Post Office Department's revolutionary new system of improved mail dispatch and delivery, goes into effect nationally on July 1.

Postmaster Becker stressed the importance of all citizens of Bay St. Louis learning this city's ZIP Code and using it in their return addresses on all correspondence. In answering mail, he said, ZIP Codes taken from return addresses on incoming mail should be used.

"The ZIP Code is literally the best word in mail following," Mr. Becker said. "It should follow the city and state in addresses."

He cited this example of the proper use of ZIP Code:

Mr. Andy J. Becker
Postmaster
Bay St. Louis, Miss., 39520

The new ZIP Code plan, Mr. Becker said, for the first time will permit the Post Office Department to short-cut repeated address reading.

"The address on mail must often be read as many as eight or ten times by postal employees to get it to the proper destination," Mr. Becker said. "Each handling along the process of delivery adds to the opportunity for human error."

"With ZIP Code, a clerk needs only to glance at the code to know immediately to what national area, state and Post Office the letter is destined, and to speed it on its way, cutting up to 24 hours off the time between deposit and delivery."

Mr. Becker said that when ZIP Code is in full swing, the United States will have "the most modern system of mail distribution and delivery in existence."

Postmaster Andy J. Becker, who was born in Bay St. Louis, is a graduate of the University of Southern Mississippi and is currently a member of the Bay St. Louis Jaycees.

PLAN FULL SCHOOL WEEK FOR RETARDED CHILDREN

The Retarded Children's Association of Hancock County is in the process of making plans for a full 5-day school week when the Children's Center opens its doors again in September, 1963. During the past term classes were held only three days each week. Mrs. Irma Baker of Pearlinton was unanimously reappointed by the Association to continue in her capacity as teacher during the 1963-64 session.

It was pointed out at the last meeting of the Association that a 5-day school week will require a greater concentration on funds raising by the Association. Since the Children's Center began its operation two years ago it has been financed by membership dues and by contributions from individuals and organizations throughout the community. It was also pointed out at the meeting that a 5-day school week would interest more parents in sending their children to these special classes.

SJA Graduates Join Order

LOCAL BANKERS ATTENDING SCHOOL OF BANKING

Two Hancock Bank officers, Clarence E. Hutchins Jr., vice president, and Russell W. Chapman, assistant vice president, are among 567 bankers attending the 14th annual two-week session of the School of Banking of the South at Louisiana State University in Baton Rouge.

Classes started June 10 and will continue through June 22, covering advanced study in all aspects of banking and economics. The school, sponsored by bankers associations in 14 southern states, requires attendance at two-week campus sessions for three years, plus extensive home study work during the remainder of the year. An outstanding faculty of banking and business leaders and well known educators conduct courses dealing with the needs of modern bank management and operation.

During the three years at LSU, students receive a total of 180 hours of classroom instruction, 30 hours of review work, organized evening study and final examinations at the conclusion of each year's session. Since the school started in 1950, it has awarded certificates of graduation to more than 1,250 bankers.

"We feel this program is making a substantial contribution to the improvement and enlarging the banking services provided to the South," said Orrin H. Swayze, director of the school and executive vice president of First National Bank, Jackson.

The school is scheduled for Sunday, July 14, at the end of North Beach Blvd.

The Sidelines Club announced this year it will be an "All-out" Regatta. Races will be limited to eight boats per race, with qualifying heats preceding each class.

Winners are based on correct time from two heats.

Drivers from as far as Houston, Texas, and Miami, Florida, are entered in the race.

This year, for the first time, there will be cash awards.

MARIE E. QUINTINI IN RACE FOR CHANCERY CLERK

We are authorized to announce the candidacy of Marie E. Quintini for the office of Chancery Clerk of Hancock County in the forthcoming August Primary election.

Miss Quintini's statement to the voters of Hancock County follows: To The Voters:

I am a resident citizen of Bay St. Louis, Miss., having been born, reared and educated here. I am a daughter of Frank and Elise Perre Quintini.

As almost every voter in the County is aware of the fact that I have been a Deputy Chancery Clerk for approximately ten years, and Deputy Chancery Clerk for the past four years, I feel it is unnecessary to go into details as to my qualifications.

I honestly believe that I am qualified in seeking the position of Chancery Clerk of Hancock County, and humbly request that you cast your vote for me.

Sincerely,
MARIE E. QUINTINI

JOHN L. DALE SEEKS OFFICE PUBLIC SERVICE COMMISSIONER

The Hancock County Eagle is authorized to announce the candidacy of John L. Dale for the office of Public Service Commissioner, Southern District, in the August Democratic Primary.

Mr. Dale's statement to the voters follows:

Pledging my ability, the experience of many years in public life and sincere desire to be of service, I take this means of announcing my candidacy for election to the office of Public Service Commissioner of the Southern District of the State of Mississippi in the August Democratic Primary election.

I was born on a farm in Greene County 34 years ago and I have lived in George County most of my life.

I am an Army Veteran and a graduate of the University of Southern Mississippi where I received B. S. and M. A. Degrees. It has been my privilege to serve

Army Engineers have invited contractors' competitive bids for three more construction jobs at the new Mississippi Test Facility of the George C. Marshall Space Flight Center, which is being built in Hancock County, Mississippi, for ground testing rocket boosters and engines for the manned moon landing program.

Bids will be opened on June 25 for constructing an office for the Corps of Engineers Area Engineer, who will be in charge of all construction at the \$500 million test complex, and modifying an existing building for use as a laboratory by the Area Engineer's staff. The office building will be a one-story wood frame building, 200 feet by 36 feet. A one-story masonry building, 63 feet by 30 feet, formerly used as a church, will be converted to a laboratory by adding a slab floor, concrete tanks and work benches, and installing utilities.

Bids will be opened on July 11 for constructing a 13.8 KV electrical distribution system and installing a 110 KV substation to serve the new installation. The work will include the construction of 9 miles of aerial distribution lines, 5/8 mile of underground ducts with manholes, 5 pole-mounted transformer banks, and a switchboard.

Bids will also be opened on July 11 for constructing the foundation for the first two test stands, a single-position stand for ground firing the 1-million-pound thrust second stage of the Saturn V moon rocket and a dual-position stand for ground firing the 7.5-million-pound thrust first stage. The job will include clearing about 70 acres, excavating about 410,000 cubic yards, and driving approximately 1,670 steel or concrete piles for the two stands, and constructing a reinforced concrete substructure with a portion of the electrical power and a reinforced grounding system for the second stage stand.

Bids for all three jobs will be opened at the Corps of Engineers district office in Mobile, Alabama. Bidding will be restricted to small business concerns in the interest of assuring such firms a fair share of Government contract work.

In a brief ceremony, the Corps of Engineers real estate project office in Bay St. Louis, Mrs. Mary H. Taylor was presented an emblem and certificate for ten years Government service. She is a resident of Bay St. Louis. The presentation, made by O. B. Moore, project manager, was attended by other employees of the office.

Similar ceremonies were held at other locations throughout the five-state Mobile District which has over 1,700 employees. The annual awards event is traditionally held on June 16, the anniversary of the Corps. This year the famed military-civilian organization attains an age of 188 years, having been authorized by the Continental Congress on June 16, 1775, shortly before the Battle of Bunker Hill. Colonel Richard Gridley, the first Chief Army Engineer, was appointed by General George Washington. General W. K. Wilson Jr., present Chief of Engineers, is the forty-first Chief of Engineers.

James J. Chiniche of Bay St. Louis has joined the project office on temporary duty while on summer vacation from Mississippi State University.

John J. Sullivan of Mobile, Ala., has joined the project office. His wife and son reside in Mobile, and may join him here at a later date.

as a school teacher, school principal and superintendent, Circuit Clerk and Chancery Clerk in George County, where I am now serving my second term in the office of Chancery Clerk. I am married and the father of two small children.

I am an active church member, having prior to this time served many years as a Sunday School Teacher, many years as an active Lay Speaker, and for the past five years as President of the Bay District Men's organization of my church. I have recently completed two years service as Chairman of the Official Board of my church. For many years I have been active in Fraternal and Civic Affairs.

The office of Public Service Commissioner is one of the important offices in the State of Mississippi. It is the duty of the Commissioner to regulate the public utility industry, to enforce the public utility laws, and to protect the public interest in the operation of public utilities.

W. H. (Shag) PYRON CANDIDATE FOR HIGHWAY COMMISSIONER

We are authorized to announce the candidacy of W. H. (Shag) Pyron for the office of Highway Commissioner, Southern District of Mississippi, in the coming August Primaries.

Mr. Pyron's statement follows: To the people of the Southern District of Mississippi:

I would like to take this opportunity to announce my candidacy for the office of Highway Commissioner of the Southern District of Mississippi. In seeking this office, I realize that it is a position of great importance to everyone in the Southern District of Mississippi. The highways of our state are the life blood of our commerce and industry. The interest of the people should always be the first consideration of your Highway Commissioner. In locating and maintaining our highway system, all too often in the past this has not been the case. When elected, I pledge to you that your Highway Department will be efficiently operated and that all highways will be built and maintained to serve the people, not for arbitrary reasons.

In seeking your support for this important office, I invite your consideration of my background, character, integrity, and experience.

I was born, reared and educated in the State of Mississippi, a graduate of Mississippi State University. After graduation, for three years I coached and taught in the public schools of this State. Since that time, I have sold heavy equipment in the Southern District of Mississippi, residing in Gulfport for four years. Due to my employment, I have had an opportunity to understand the problems affecting our highways as I have worked closely with contractors, county and municipal officials.

I am a resident of Hazlehurst, Mississippi, and actively partici-

pate in the affairs of my community. I am married to the former Carlene Freiler and we have three fine sons. I am a Presbyterian, a member of the Chamber of Commerce, Mississippi State University "M" Club, Vice President of the Copiah County Chapter of the Mississippi State University Alumni Association, and was an all Southeastern Conference football player.

Throughout my life, I have demonstrated the ability to get the job done. I feel that South Mississippi is desperately in need of a Highway Commissioner who will work for the interest of the people and give the proper service for the many millions that we spend each year on our highway system.

Your vote and support for W. H. (Shag) Pyron for Highway Commissioner will be sincerely appreciated and rewarded by honest, conscientious service.

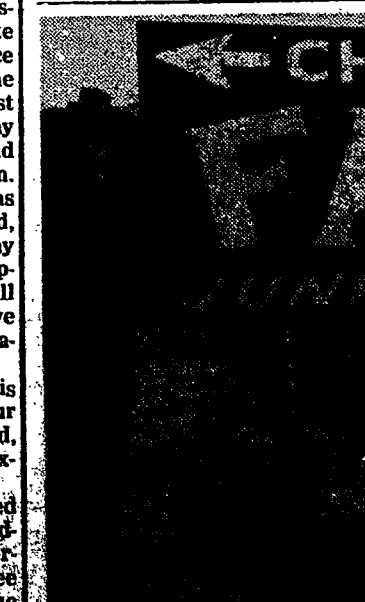

Submitted to, approved and subscribed by W. H. (Shag) Pyron.

DECISIONS FINAL BUT SPECIAL APPEALS POSSIBLE

In keeping with the decentralized, "grass roots" principles of Selective Service operation, decisions of local boards on classifications are final. But provisions are made for appeals to volunteer civilian appeal boards under conditions specified in the law and regulations.

An appeal may be taken from any local board classification. The registrant, a dependent, or an employer under certain conditions, may appeal from a classification. The basic period in which an appeal must be taken is 10 days, with longer periods when the registrant is outside of the country. The time period is counted from the date the local board mails the registrant a notice of classification.

The Government appeal agent, who is a volunteer member of the local board team, also may appeal, as may the State Director or the National Director of Selective Service.

An appeal is taken by written notice to the local board, but no particular form is required. If the appeal board's decision is unanimous, no further appeal rights exist except for the right of the State Director or the National Director to appeal to the presidential appeal board.

If the appeal board's decision is by a split vote, the case may be appealed to the presidential appeal board by the registrant and others entitled to take the "first appeal."

Another right given to the registrant is the right of a personal appearance before the board if requested within 10 days after the notice of classification is mailed. The right of personal appearance is in addition to the appeal right.

JOHN L. DALE FOR PUBLIC SERVICE COMMISSION
(Continued From Page One)

It is my sincere conviction that every elected public official should at all times keep himself in close contact with the people whom he is elected to serve. There are many fine services afforded by statute to our citizens through the office of Public Service Commissioner. I believe with all sincerity that these services of this important office should be made available to every citizen. I believe that the Public Service Commissioner should be in close personal contact with the people, know their utility problems and be willing to help them at all times in solving these problems.

If you will elect me as your Public Service Commissioner I propose to hold informal public hearings in every county at least once every year, and more often if requested to do so, at which time I will personally hear complaints from any citizen concerning his telephone service, his electric service, his gas or water service or any other utility service covered by the office of Public Service Commissioner. I will then take direct, personal and prompt action to assist you in solving these utility problems.

There are at this time many thousands of fine tax paying Mississippians living in rural areas of our state who are unable to obtain telephone service. I believe that the extension of telephone service into rural areas is moving entirely too slowly and I promise to work toward an improvement in this area. There are countless thousands of Mississippians living in rural areas of our district who although they have telephones do not enjoy the high quality of service to which I believe they are entitled. I was born and lived many years on a farm in the country. I understand and deeply appreciate problems of rural people and I promise to work for better telephone service for our rural citizens.

If you will elect me as your Public Service Commissioner I will work for low utility rates and fair installation charges, and for low freight and bus and truck line rates for our people.

In the years that lie ahead the citizens of our rural areas and of our cities face many serious utility problems. If elected your Public Service Commissioner I will personally visit your community, your town or your city and work with elected and appointed city and county officials, private citizens and others in helping them successfully overcome their utility problems.

It is my intention to conduct a very active and aggressive campaign and I shall be interested in discussing my candidacy with as many of the citizens of the Southern District as possible.

It is my sincere desire to represent all of the people of the Southern District at all times, and to give my personal attention to their utility problems.

With deeply and more humble thanks for your support in my bid for Public Service Commissioner in the forthcoming election August 6th.

Sincerely Yours
JOHN L. DALE
Candidate for Public Service Commissioner (Southern District)

VOTE ALBERT D. BIEHL

Elmer Johnston of Gulfport is visiting his daughter and son-in-law, Mr. and Mrs. George O'Farrell and family of Lakeshore.

Billy McConnell of Clermont Harbor has enlisted in the Navy. He will be stationed at Great Lakes where he will study medical technology.

Get well wishes are extended to Mrs. Fred Burson and daughter who have been ill.

Mr. and Mrs. Sidney Defraites of New Orleans spent the weekend in their summer home in Clermont. Visiting the Defraites was their granddaughter, Gayle of New Orleans.

I would like to correct an error in last week's column. Birthday wishes were for Victor Schwartz who celebrated June 14 instead of Victor Green, and to Clarence Green who celebrated his 15th birthday on June 16.

Mr. and Mrs. Skinner of Ansley is now working in a restaurant in Biloxi.

Elmer Johnston of Gulfport is visiting his daughter and son-in-law, Mr. and Mrs. George O'Farrell and family of Lakeshore.

Horsley-Kimbrell Wedding

The marriage of Miss Paula Kimbrell to Mr. Allen Caperton Braxton Horsley took place in Harvard Memorial Church, Cambridge, Mass., Friday, June 14.

The Rev. Mr. Jerrold Gibson performed the ceremony in the presence of the immediate families.

Miss Rose Shelton Horsley, sister of the groom, was the bride's only attendant. Mr. Alfred E. Blanchard was best man. There was a wedding breakfast at the Hotel Continental, Cambridge.

Mrs. Horsley, daughter of Mr. and Mrs. S. Paul Kimbrell of New Orleans, Louisiana, and Waveland, Mississippi, prepared at the Gulf

Park School in Gulfport, Mississippi, and was graduated with honors from Radcliffe College, Class of 1963.

Mr. Horsley is the son of Mr. and Mrs. Caperton Braxton Horsley of East Walpole, Massachusetts. He is a grandson of the late Dr. and Mrs. J. Shelton Horsley of Richmond, Virginia.

Mr. Horsley attended the Cambridge School of Weston and was graduated with honors from Harvard College, Class of 1963.

The couple will live in Charlottesville, Virginia, where Mr. Horsley will enter the law school at the University of Virginia in September.

SPACE AND ROCKETS CONSERVATION TOPIC AT FISHING RODEO

Gainesville, Miss. - Next to fishing, space and rockets will probably be the main topic of conservation during this Mississippi Deep Sea Fishing Rodeo July 4-7 in Gulfport, Miss.

The 15th annual fishing affair has been dedicated to the National Aeronautics and Space Administration - a federal agency dedicated to the peaceful exploration of outer space.

NASA will have quite an exhibit, too, at the Rodeo's huge tent located right on the harbor where the boats will be bringing in their catches.

The space exhibit - which will be brought to the Gulf Coast from the Marshall Space Flight Center in Huntsville, Ala. - is designed 100 per cent as educational.

Personnel from the Marshall Center will be at the exhibit to explain such things as "how this country is going to land Americans on the moon in this decade."

The Rodeo was appropriately dedicated to NASA because just 45 minutes from the boat harbor at Gulfport, construction crews are already busy developing Mississippi Test Operations in Han-

cock County to ground test the huge rockets which will some day launch the first Americans to the moon.

Personnel from MTO will be on hand at the exhibit, also, to explain the role the test center will play in this nation's space program. MTO is a division of the Marshall Center in Huntsville directed by rocket expert Dr. Werner von Braun. William C. Fortune is manager of MTO.

Some of the major items in the exhibit are 1-20 scale models of the Saturn V moon rocket now under development and the Saturn I rocket which will be used to put three astronauts in an orbit around the earth to prepare for the moon trip.

These engineering models look big enough to launch something themselves. The Saturn V model stands 20 feet tall. The real Saturn V will be 350 feet tall on the launch pad. The Saturn I model is 11 feet tall. The real Saturn I stands 174 feet.

Other major items in the space exhibit include: a full-scale mock-up of a Mercury spacecraft like the one Astronaut Leroy Gordon Cooper rode in his recent 22-orbit flight around the globe and a full scale mock-up of the Apollo spacecraft which the three astro-

The unbeaten Trapani's lost their first game of the season in a non-seasonal game to Southern Realty at a tournament at Star Route Farm Sunday. Trapani's had Southern Realty 6-1 to the last inning when a series of bad passes with the ball enabled Southern Realty to score eight runs to nip Trapani's 8-6. Trapani was missing a few regular players, among the surprises of the tournament was Kranky's. Kranky's had a bad start at the beginning of the season and didn't show much promise.

Trapani's beat them by a score of 1-0 which showed that they aren't out of it yet. The tournament was part of the church fair sponsored by St. John's.

C. A. Powers of New Orleans of the Pine Weight-Lifting Team is expected to spend a few days in the Bay in the future.

Bill Pittcain bowled a 611 in his first 600 series last Thursday at the Bay Bowling Center.

Arnold Palmer did it again. The top man of golf won the Thunderbird tournament Sunday to prove he still has the stuff that has made him the leading money winner in golf today. He's one of the best and unlike other players he makes no excuses when he loses and doesn't boast when he wins. Arnold has many good seasons years before he falls among the ranks of the losers.

Rough water made sailing tough for the members of the Gulfport Yacht Club Sunday. A squall came up all of a sudden causing two boats to overturn. Everyone returned safely though from what seemed an unpleasant day of sailing.

St. Stanislaus will have its third annual regatta sponsored by the Pelican Racing Club in co-operation with the National Outboard Association July 14. It will be held at the end of North Beach Blvd. This year's regatta will be an all outboard regatta. All races

WAVELAND RESIDENT LOSES BROTHER

W. Winthrop Carter Jr., brother of Norman L. Carter of Bay St. Louis, died last Tuesday morning in Houston, Texas.

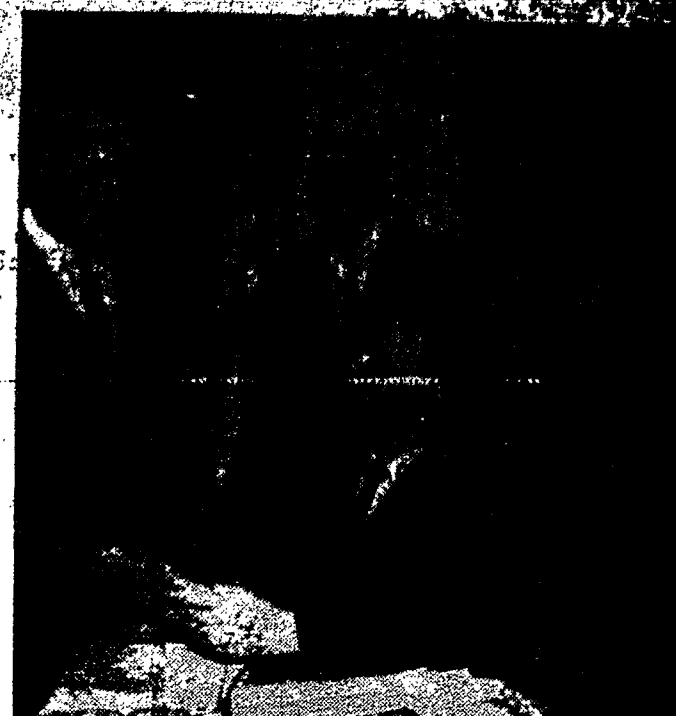

Other survivors are his widow, Mrs. Annette Meyer Carter; a son W. Winthrop Carter III, two daughters, Mrs. Eddie Ney and Mrs. Robert Stewart and five grandchildren of Houston.

Funeral services were held at 3 o'clock June 13, from the House of Bultman in New Orleans with interment in Metairie Cemetery.

Visitors will also see a space unit display, solar cell demonstration, panel board displays and continuous run movies.

GOVERNOR BARNETT SAYS JUNE IS DAIRY MONTH

Governor Ross R. Barnett is shown above signing the "June is Dairy Month" proclamation. The Dairy Industry in Mississippi represents about one fourth of the total farm income of the state amounting to over \$120,000,000 annually. Looking on with Governor Barnett left to right are Herman Mosby, President Mississippi Dairy Products Association; Ed Martindale, Marketing Specialist M. S. U.; and J. J. Edwards, Executive Secretary Mississippi Dairy Products Association.

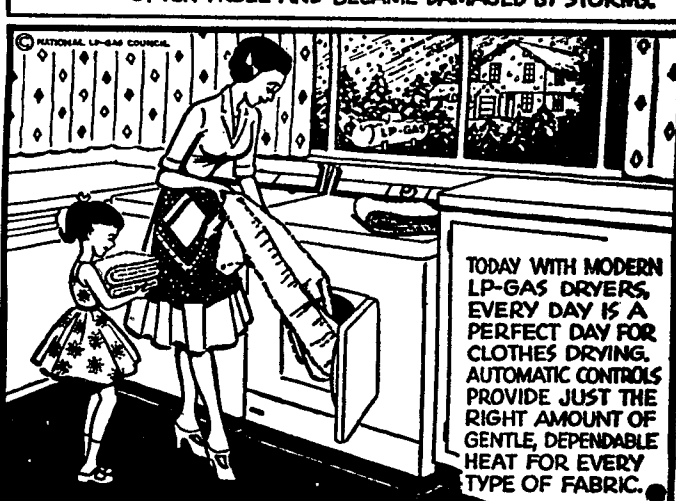

will be limited to eight boats per race. The winners will be judged by the correct time of two heats. Drivers from as far away as Houston, Texas, and Miami, Florida will compete. For the first time there will be a cash award. For those who haven't seen the regatta before, it is an exciting sport and shouldn't be missed.

Monday night's game between Reinike's and Kiln proved that Reinike's had to win once in the season. Reinike's took the game 17-1 in an unbalanced affair. Reinike's kept pulling hits out of a hat as the runs kept piling up for them. The Kiln just wasn't on that night, they have a good team and like Kranky's and Reinike's, need a real Reinike's win can be attributed to the excellent team work which they never had before Monday night. If Reinike can hold on to their rabbit's foot they may have a chance for the championship this year.

Officers elected at Monday's meeting to serve for the coming year are Norman Renshaw, chairman; Dick Merritt, president; Dr. John L. Griffin, vice president; Sidney Prague, re-elected secretary-treasurer.

Mr. and Mrs. Mac Haas and children Nicholas and Andrew of Oxford, Miss., visited last week with his parents Mr. and Mrs. Norton Haas Sr.

Mrs. Cora Martin is back from a visit in New Orleans with her son-in-law and daughter. Mr. and Mrs. Ashton Brisolara, and daughter Sharon.

JACKSON EDITOR NEW MISSISSIPPI PRESS PRESIDENT

T. M. Hederman, Jr., Editor of the Jackson Press, is the new president of the 37-year-old Mississippi Press Association.

Mr. Hederman was elected at the Association's annual convention in Biloxi. He succeeded Norman A. Mott, Jr., publisher of the Yazoo City Herald.

Upward of 450 persons, a record-breaking attendance, were present for the three-day gathering which heard such notable speakers as Max Thomas, Knoxville, Tenn., the next president of the world's largest press group, the National Editorial Association; Dr. Paul L. Fisher, Jr., Director of the Freedom of Information Center of the University of Missouri; and John E. Rohde, president, Chicago National Association of Newspaper Advertising Representatives.

Warning that America faces the gravest threat in its history from the bureaucratic control of business under a political philosophy of managed economy, NEA Vice President Thomas urged his fellow publishers to redouble their efforts to warn their readers of danger ahead.

Other speakers included Loyd Gould, Associated Press foreign correspondent, just returned from Frankfurt, Germany, who told of deprivation and terror behind the Iron Curtain countries; and Al Webb, chief of the United Press International Bureau at Cape Canaveral, who gave his audience a close-up of America's space program.

The most fantastic development in the production of newspapers in many decades was described to the MPA publishers by Collier Elliott, widely known newspaper engineering consultant, Mincola, N. Y., who told of the growing use of computers.

Representatives of three sister state press associations also spoke. They included President Joe Silverberg and Manager Ronald

Col. and Mrs. Alfred McCaleb have as guests their grandson, Alfred McCaleb III, Mrs. McCaleb and children Robert and Fred of Baton Rouge.

George Lemon Sugg, Jackson, was re-elected Manager for the 28th consecutive year.

The Association, one of the oldest in the nation, will hold its 88th annual convention at the Buena Vista Hotel, Biloxi, on June 11, 12, and 13, 1964.

RESEARCH DISCOVERY—From research conducted for her Master's thesis in biology, Peggy Rae Dorris, an Ole Miss student, has discovered in Mississippi a small brown spider which is as abundant as the black widow, smaller, and just as venomous. The "Loxosceles Recluse," or "Mississippi Brown" as Miss Dorris calls it, looks like a pocket-size edition of the more familiar "granddaddy longlegs" spider. Miss Dorris, an Ole Miss biology instructor, conducted her research in five North Mississippi counties over a period of three years. Twenty-one families of spiders and 127 species were found in this first detailed study of its kind in Mississippi.

FORESTRY COMMISSION COMMENDED FOR ALERTNESS, EFFICIENCY

The Mississippi Forestry Commission this week was commended for its alertness and efficiency in suppressing forest fires during the past year.

The Mississippi Forestry Association, an organization of individuals and companies interested in forestry development, has sent telegrams of appreciation to State Forester Jack Holman and to seven district Commission foresters and through them all of the Commission's personnel for their dedicated and valuable service in fire control. The messages were signed by MFA President Jim Craig of Jackson and Ben Davis, executive vice-president.

The Commission's district foresters who received the messages are: C. A. Bozeman, Rolling Fork; Kenneth Burchfield, Wiggins; George Criss, Grenada; Robert Henson, Bay Springs; Bynum Meeks, Brookhaven; Jack Rhodes, Tupelo; and Oscar Tissue, Philadelphia.

Craig said that although the critical situation resulted in about twice as many forest fires from April 1962 to April 1963 as in the previous year, the average acreage burned was kept to almost the same level.

The Mississippi Forestry Association, joining with the Forestry Commission in requesting that everyone be especially careful with fire during this dry weather and summer vacation period.

PROBING THE UNKNOWN

Early dawn at Cape Canaveral... and out of the flaming roar a finger of science probes the unknown. Man has never been content to live behind a curtain of mystery. He must seek... discover... explore. Nor is man's soul less eager than his mind! For if we are meant each day to learn one more truth of our environment, we are meant, too, to learn one more truth of our Creator. There is hope that scientific probing can enrich our physical life; there is promise that religious searching will deepen our spiritual life. Tomorrow depends on every lesson learned at Canaveral. But, to even greater degree, on every truth learned at Church.

THE CHURCH FOR ALL... ALL FOR THE CHURCH

The Church is the greatest factor on earth for the building of character and good citizenship. It is a schoolhouse of spiritual values. Without a strong Church, neither democracy nor civilization can survive. There are four sound reasons why every person should attend services regularly and support the Church. They are: (1) For his own sake. (2) For his children's sake. (3) For the sake of his community and nation. (4) For the sake of the Church itself, which needs his moral and material support. Plan to go to church regularly and read your Bible daily.

Army Engineers will open bid at Mobile on July 2 for the construction of a telephone building to serve the NASA Marshall Space Flight Center's Mississippi Test Operations.

A number of facilities are under construction in Hancock County, Mississippi, at the present time and others are scheduled for initiation in future weeks for the new Marshall installation, which will be used for ground testing lunar rocket stages and engines. The total construction cost is estimated at about \$300 million. It is expected that the construction force will number about 3,000 workers and that the permanent operating force will number over 2,000 people.

The telephone building, which will be located in the administrative area, will house the private business exchange for the entire installation, teletypewriters, facsimile transmitting and receiving equipment, and a cryptographic center. The PBX will have a capacity of 2,000 internal telephone lines with a 200-line tie to the public carrier. The building will be a one-story structure with a ground floor area of 10,600 square feet and a basement floor area of 1,400 square feet.

The contractor will also construct a small telephone terminal building at the south boundary, where the private lines will tie in with the system of the public carrier. Bids for the construction of the buildings will be accepted from small business concerns only in the interest of assuring such firms a fair share of Government contract work.

LETTER FROM GIRL STATER EXPRESSES THANKS

Mrs. Guy Bufkin received letter of appreciation from Girl Stater, Edna Bourgeois. Her letter follows:

Bay St. Louis, Mississippi
C/o Mrs. Guy Bufkin

Dear Mrs. Bufkin:

I would like to take this opportunity to thank the American Legion Auxiliary for giving me the wonderful privilege of attending Girl's State 1963.

Campaign signs and posters greeted us upon our arrival in Jackson at 1 o'clock Friday. After registration and checking into my room, I devoted the afternoon to reviewing the campus. It was during this time that I met many of my fellow Girl Staters, especially those running for office. After the first assembly Friday night where we met our counselors and took the oath for citizenship in Girl's State, Boys' State Ball. I enjoy myself to the fullest and met many boys from many parts of our great state.

Each morning we start the day by raising and pledging allegiance to the flag.

Party caucuses followed this Saturday morning. Both Nationalists and Federalists Parties choose their party platform and candidates for the higher state offices, at these first caucuses. These meetings took practically all of Saturday.

Sunday afternoon brought more party caucuses, this time the purpose was to select candidates for some minor offices.

We did enjoy a picnic supper late Sunday evening, and that night met one of our United States Senators, Senator John Stennis. His interesting address was "Cuba and the Arms and Disarmament Act."

The schedule is long and hard. Everyone is very friendly and kind. Though these facts are true, I think each and everyone of the four hundred Girl Staters misses her home in some way. I am no

MULTI-MILLION DOLLAR PROGRAM UNDER CONSTRUCTION

WASHINGTON - Senator John Stennis said the Senate Aeronautics and Space Committee has under consideration the authorization of a 1964 construction program of \$111,890,000 for the Mississippi Testing Operation in Hancock and Pearl River counties.

Stennis, a member of the Space Committee, said the bill calls for the construction of buildings, test stands and other facilities in the fiscal year beginning July 1, 1963.

The big rocket engine testing center in South Mississippi is estimated to cost a total of \$500 million when completed. It will test Saturn rocket booster engines for the man-in-space program.

A crew of U. S. Corps of Engineers, with offices in Bay St. Louis, has accelerated its program of land acquisition to provide the necessary 13,500-acre site for the actual construction and the easements on an additional 128,000 acres for the "buffer zone" of the testing site.

Recently, contractors have been let for fencing the site and for other steps preparatory to getting the big base in readiness.

KILN RESIDENT DIED IN GULFPORT HOSPITAL FRIDAY

Mrs. Rowena M. Necaise, 59, wife of Dr. Placide Necaise of Kiln, Miss., died at 11 a. m. Friday, June 14, in Gulfport Memorial Hospital.

A native of Hancock County, she was the daughter of the late William and Elizabeth Smith Marson.

Survivors are two sons, Donald and Keith Necaise of Huntsville, Ala., two sisters, Miss Buelah Marson of Picayune, Miss.; Mrs. Louise Craddock, and a brother, Arthur Marson of Kiln.

Funeral services were held at 3 o'clock Sunday afternoon from the St. Charles Memorial Church. Interment was in Bayou Coco Cemetery.

STENNIS SAYS FUNDS AVAILABLE FOR CAMP SHELBY

WASHINGTON - Senator John Stennis said \$400,000 will soon be available for additional improvements at Camp Shelby.

The matter is now before the Senate Armed Services Committee for consideration, said Stennis, who has sponsored the Camp Shelby project for years, is the second ranking member of that powerful Senate Committee.

Stennis explained that the \$400,000 has been reprogrammed after the Secretary of Defense recommended shifting the funds from a less urgent project for which they had earlier been appropriated in the 1963 budget.

Long-range plans call for making Camp Shelby, near Hattiesburg, "one of the largest and most suitable National Guard training sites in the nation," Stennis said.

"I began pushing for this program to rebuild Camp Shelby as a suitable training site for an entire National Guard division," Stennis said.

The Senator said two million dollars of an estimated seven million dollar project have already been under contract on the construction completed.

The funds are being used to build barracks, mess halls, administration and supply buildings.

SOIL CONSERVATION NEWS

The Soil Conservation planning activities for June 1963 includes the following new Soil Conservation District Cooperators, in Hancock County.

Dunovan Cuevas and F. A. Tribble of the Standard Community, Paul R. Fincher, Lecombe, and Roy Jones, Rocky Hill. There were two men who revised their farm program with the district either by added acres, or change in type farming. They were Mr. Ted Shaw of Necaise Crossing and Mr. Oswell Moran of Catahoula area. This makes a total of 120 new acres added to the District Program, and 473 acres revised to include soil and water conservation planning on each acre of land by the individual owner.

There are 711 farm units in Hancock County that need conservation practices planned and carried out by applying on the land the needed practices suitable to the best use. With the 711 farm units, there are 278,439 acres involved in this area. 494 of these farm units have some conservation practices planned on the land, which includes 84,635 acres. It is the desire of the Hancock County Soil Conservation District to get all of the land in this county under a plan with the proper and suitable conservation practices applied. It is hoped that most of this work can be accomplished by 1975.

See your local Soil Conservation Service Technician for further information.

Minor Accident

Personal injuries and property damages were incurred in a traffic accident last Friday night.

City Police Officer, Lathan Garriga reported the accident involved a moving van belonging to Dunbar Moving and Storage Company of Knoxville, Tenn., operated by Sam Taylor and a 1963 Dodge station wagon driven by H. W. West of 114 Bay View Court.

According to Garriga the moving van was parked at the traffic light at Dunbar Avenue and Highway 90 when it was struck from the rear by the West car.

West, he added, was brought to Hancock General Hospital for treatment. Damage to his vehicle was estimated by the officer at \$1,200.

Garriga said West was tried in Mayor John Scalfide's Court June 13 on a charge of reckless driving and Taylor for not having a tail light on the van.

A do-it-yourself retirement plan that really works

Just a few pennies a day invested now in U.S. Savings Bonds can help you build security for the future.

Here's a retirement plan you can set up yourself, administer, yourself with no fees or expenses, and go into with absolute confidence.

Start with Series E Bonds

You begin by buying E Bonds where you bank, or automatically on the Payroll Savings Plan where you work. When you hold them for 17 years, 9 months, you get almost double your money back—\$1.93 for every \$1 invested.

When you retire, you can exchange your E Bonds for H Bonds. H Bonds pay interest to you semi-annually in cash—at 3.75% when held to maturity. There's no charge for trading. And the interest you accumulated before the trade is not taxable until you cash in your H Bonds.

A riskless plan

A U.S. Savings Bonds retirement plan is completely without risk. Your money keeps on growing, guaranteed by the Government. You can get it anytime you want—with interest. And if your Bonds are ever lost or destroyed, the Treasury replaces them free.

Why not look into this plan today?

CATHOLIC UNIVERSITY APPROVED SAINT AUGUSTINE'S

Washington, D. C. June 12: One secondary school in Bay St. Louis has been approved for affiliation with the Catholic University of America here, according to an announcement by Rt. Rev. Msgr. William J. McDonald, Rector of the University. It is St. Augustine's Seminary, Uman Ave.

At the same meeting of the Academic Senate of Catholic University which approved this school, seven other secondary schools were approved.

Basic purpose of affiliation is to render to Catholic institutions of learned above the elementary level such assistance as is possible through intelligent, informed and alert leadership found within the affiliates themselves. In addition, affiliates are eligible to numerous services from both Catholic University and other affiliates, depending upon their needs.
